

Course Description

Alcoholic liver disease presents a new set of unique challenges for healthcare professionals. As the population of patients requiring liver transplant shifts away from hepatitis C, alcoholic liver disease is emerging as a primary indication for liver transplant. This seminar will cover the pathophysiology and epidemiology of alcoholic liver disease, the management of alcoholic hepatitis, transplant outcomes in alcoholic cirrhosis, the treatment of severe alcoholic hepatitis and the management of alcohol-use disorders.

Learning Objectives

Conference participants will:

- Learn about the growing problems of alcohol-use disorders and alcoholic liver disease in the United States.
- Learn how to assess for alcohol-use disorders in patients.
- Learn how liver transplantation can save the lives of some patients who are dying from end-stage liver disease caused by alcohol.

Target Audience

- Gastroenterologists/hepatologists
- Internal medicine
- Psychiatry
- Addiction medical professionals
- Nursing staff

CME Accreditation Statement

New York Medical College is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

New York Medical College designates this Live activity for a maximum of 1.5 *AMA PRA Category 1 Credit(s)*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
